STANDARD OPERATING PROCEDURE SP04 DUST AND AIR QUALITY CONTROL

ENVIRONMENTAL RISK ACTION PLAN					
Dust and Air Quality					
Objective	To comply with contractual requirements and ensure that dust and other air emissions from construction activities do not cause impacts on end users and surrounding residents / tenants / neighbours etc.				
Legal, Contractual & Other Requirements	Contract specification clauseSee ENV005 Legal Requirements				
Targets	 No valid dust complaints resulting from construction works. No dust impacting on end users activities or surrounding residences. No release of contaminants, (odour, smoke etc) or prescribed contaminant into the air. Comply with construction contract conditions. 				
Responsibilities	 Site Foreman to ensure construction activities, both Proline's and Subcontractor's implement the control measures. Site Foreman will obtain permission via the Project Manager to work outside approved hours. 				
Controls (means & resources)	 Use water sprays and/or other means to control dust Minimise areas of exposed earth and stockpiles Minimise traffic on exposed areas Cover haul vehicles loads & ensure tail gates are closed when operating on public roads Remove mud from haul vehicles prior to entering public roads Remove spilt mud by construction equipment or vehicles on public roads Reprogram dust generating work during periods of high wind Provide awareness training in the need to minimise dust Regular visual monitoring of dust generation Maintenance of Plant & Equipment as per manufacturers requirements Keep emissions within statutory or other required limits 				
Timeframe	 Minimise fire risks, and prevent and control fires Duration of site works. 				
Monitoring & Reporting	 Duration of site works. Daily inspections to be recorded on the Daily Site Safety Checklist Doc No: OHS013.14 				
	 Complaints to be recorded on form Environmental Incident and Complaint Report ENV026. A register Incident / Accident Register Doc No: OHS052 will be 				
	 maintained for all incidents or complaints. Monthly project status briefs to be provided to the clients representative and stakeholders if required under the contract. 				
Review & Evaluation	In order to ensure this procedure remains effective, it will be reviewed by Senior Management on an annual basis or in the event of a major environmental incident, changes in legislation or if raised by workers concern/s.
